As a technology pioneer at MIT and as the leader of three successful start-ups, Kevin Ashton experienced firsthand the all-consuming challenge of creating something new. Now, in a tour-de-force narrative twenty years in the making, Ashton leads us on a journey through humanity's greatest creations to uncover the surprising truth behind who creates and how they do it. From the crystallographer's laboratory where the secrets of DNA were first revealed by a long forgotten woman, to the electromagnetic chamber where the stealth bomber was born on a twenty-five-cent bet, to the Ohio bicycle shop where the Wright brothers set out to "fly a horse," Ashton showcases the seemingly unremarkable individuals, gradual steps, multiple failures, and countless ordinary and usually uncredited acts that lead to our most astounding breakthroughs. Creators, he shows, apply in particular ways the everyday, ordinary thinking of which we are all capable, taking thousands of small steps and working in an endless loop of problem and solution. He examines why innovators meet resistance and how they overcome it, why most organizations stifle creative people, and how the most creative organizations work. Drawing on examples from art, science, business, and invention, from Mozart to the Muppets, Archimedes to Apple, Kandinsky to a can of Coke, How to Fly a Horse is a passionate and immensely rewarding exploration of how "new" comes to be.

How To Fly A Horse -Kevin Ashton 2015-01-29
WINNER OF THE 800-CEO-READ BUSINESS BOOK OF THE YEAR 2015 In the vein of Susan Cain's QUIET and Malcolm Gladwell's DAVID AND GOLIATH, HOW TO FLY A HORSE is a smart, empowering book that dispels the myths around genius and creativity. There is a myth about how something new comes to be; that geniuses have dramatic moments of insight where great things and thoughts are born whole. Symphonies are composed complete. Science is accomplished with eureka shrieks. Businesses are built by magic touch. The myth is wrong. Anyone can create. Acclaimed technology pioneer Kevin Ashton takes us behind the scenes of creation to reveal the true process of discovery and how 'new' comes to be. From Archimedes to Apple, from Kandinsky to the Coke can, from the Wright brothers - who set out to 'fly a horse' - to Woody Allen, he exposes the seemingly unremarkable individuals, gradual steps, multiple failures and countless ordinary and often uncredited acts that led to our most astounding breakthroughs.

Why is a Fly Not a Horse? -Giuseppe Sermonti 2005
This book's Italian title, Dimenticare Darwin, means "Forget Darwin," and its prologue bears the title "Evolution is dead!" The author, Dr. Giuseppe Sermonti, is a respected Italian biologist who boldly shatters the myth that all critics of Darwinian evolution are American religious fundamentalists. This delightful little book is loaded with scientific facts that aren't taught in standard biology classes, but it is also full of history and poetry. Why is a Fly Not a Horse? does not have all the answers, but it asks many of the right questions-in a style that is both entertaining and inspiring. Giuseppe Sermonti is retired Professor of Genetics at the University of Perugia. He discovered genetic recombination in antibiotic-producing Penicillium and Streptomyces and was Vice President at the XIV International Congress of Genetics (Moscow, 1980). Sermonti is Chief Editor of Rivista di Biologia/Biology Forum, one of the oldest still-published biology journals in the world, and he has published seven other books, including Dopo Darwin (iAfter Darwin), with R. Fondi (1980-1984).

<i>The Carriage Trade</i> -Thomas A. Kinney 2004-10-13
Co-Winner of the 2005 Hagley Business History Book Prize given by the Busines History Conference. In 1926, the Carriage Builders' National Association met for the last time, signaling the automobile's final triumph over the horse-drawn carriage. Only a decade earlier, carriages and wagons were still a common sight on every Main Street in America. In the previous century, carriage-building had been one of the largest and most dynamic industries in the country. In this sweeping study of a forgotten trade, Thomas A. Kinney extends our understanding of nineteenth-century American industrialization far beyond the steel mill and railroad. The legendary Studebaker Brothers Manufacturing Company in 1880 produced a hundred wagons a day—one every six minutes. Across the country, smaller factories fashioned vast quantities of buggies, farm wagons, and luxury carriages. Today, if we think of carriage and wagon at all, we assume it merely foreshadowed the automobile industry. Yet., the carriage industry epitomized a batch-work approach to production that flourished for decades. Contradicting the model of industrial development in which hand tools, small firms, and individual craftsmanship simply gave way to mechanized factories, the carriage industry successfully employed small-scale business and manufacturing practices throughout its history. The Carriage Trade traces the rise and fall of this heterogeneous industry, from the pre-industrial shop system to the coming of the automobile, using as case studies Studebaker, the New York-based luxury carriage-maker Brewsters, and dozens of smallerfirms from around the country. Kinney also explores the experiences of the carriage and wagon worker over the life of the industry. Deeply researched and strikingly original, this study contributes a vivid chapter to the story of America's industrial revolution.

Horse -Geraldine Brooks 2022-06-14
"Brooks' chronological and cross-disciplinary leaps are thrilling." —The New York Times Book Review "Horse isn't just an animal story—it's a moving narrative about race and art." —TIME "A revelation . . . [the] best horse book I've ever read." —Jane Smiley, The New York Times Book Review A discarded painting in a junk pile, a skeleton in an attic, and the greatest racehorse in American history: from these strands, a Pulitzer Prize winner braids a sweeping story of spirit, obsession, and injustice across American history Kentucky, 1850. An enslaved groom named Jarret and a bay foal forge a bond of understanding that will carry the horse to record-setting victories across the South. When the nation erupts in civil war, an itinerant young artist who has made his name on paintings of the racehorse takes up arms for the Union. On a perilous night, he reunites with the stallion and his groom, very far from the glamor of any racetrack. New York City, 1954. Martha Jackson, a gallery owner celebrated for taking risks on edgy contemporary painters, becomes obsessed with a nineteenth-century equestrian oil painting of mysterious provenance. Washington, DC, 2019. Jess, a Smithsonian scientist from Australia, and Theo, a Nigerian-American art historian, find themselves unexpectedly connected through their shared interest in the horse—one studying the stallion's bones for clues to his power and endurance, the other uncovering the lost history of the unsung Black horsemen who were critical to his racing success. Based on the remarkable true story of the record-breaking thoroughbred Lexington, Horse is a novel of art and science, love and obsession, and our unfinished reckoning with racism.

Rough Magic -Lara Prior-Palmer 2019-05-07
"Taking off on a horse into the Mongolian Steppe sounds like the bracing inverse to an overpopulated, busy urban life, but having the skills and grit to pull it off is another thing entirely. . . . Lara Prior–Palmer attempted the Mongol Derby not really knowing what she was getting into; she ended it knowing much more about herself, and a race champion besides." —Estelle Tang, Elle At the age of nineteen, Lara Prior–Palmer discovered a website devoted to "the world's longest, toughest horse race"—an annual competition of endurance and skill that involves dozens of riders racing a series of twenty-five wild ponies across 1,000 kilometers of Mongolian grassland. On a whim, she decided to enter the race. As she boarded a plane to East Asia, she was utterly unprepared for what awaited her. Riders often spend years preparing to compete in the Mongol Derby, a course that re–creates the horse messenger system developed by Genghis Khan. Many fail to finish. Prior–Palmer had no formal training. She was driven by her own restlessness, stubbornness, and a lifelong love of horses. She raced for ten days through extreme heat and terrifying storms, catching a few hours of sleep where she could at the homes of nomadic families. Battling bouts of illness and dehydration, exhaustion and bruising falls, she decided she had nothing to lose. Each dawn she rode out again on a fresh horse, scrambling up mountains, swimming through rivers, crossing woodlands and wetlands, arid dunes and open steppe, as American television crews chased her in their jeeps. Told with terrific suspense and style, in a voice full of poetry and soul, Rough Magic captures the extraordinary story of one young woman who forged ahead, against all odds, to become the first female winner of this breathtaking race. "Think the next Educated or Wild. Palmer's memoir of beating the odds to become a horse champion is an inspiring saga of perseverance—and a classic underdog tale." —Entertainment Weekly

<i>West with the Night</i> -Beryl Markham 2012-08-14
The classic memoir of Africa, aviation, and adventure—the inspiration for Paula McLain’s Circling the Sun and “a bloody wonderful book” (Ernest Hemingway). Beryl Markham’s life story is a true epic. Not only did she set records and break barriers as a pilot, she shattered societal expectations, threw herself into torrid love affairs, survived desperate crash landings—and chronicled everything. A contemporary of Karen Blixen (better known as Isak Dinesen, the author of Out of Africa), Markham left an enduring memoir that soars with astounding candor and shimmering insights. A rebel from a young age, the British-born Markham was raised in Kenya’s unforgiving farmlands. She trained as a bush pilot at a time when most Africans had never seen a plane. In 1936, she accepted the ultimate challenge: to fly solo across the Atlantic Ocean from east to west, a feat that fellow female aviator Amelia Earhart had completed in reverse just a few years before. Markham’s successes and her failures—and her deep, lifelong love of the “soul of Africa”—are all told here with wrenching honesty and agile wit. Hailed as “one of the greatest adventure books of all time” by Newsweek and “the sort of book that makes you think human beings can do anything” by the New York Times, West with the Night remains a powerful testament to one of the iconic lives of the twentieth century.

Still Horse Crazy After All These Years -James Wofford 2021-06-16
A rare insider’s look at the life of a professional sportsman as he tries to reconcile the passion that drives him with livelihood, family, and aging. Three-time Olympian Jim Wofford grew up with horses, beginning with his childhood on a Kansas farm in the forties. The son of an Olympic show jumper, Wofford and his siblings all found themselves pursuing a “riding life”—one of reward and growth, of challenge and disappointment, but mostly of learning to understand and work with a complex animal as an athletic partner and friend. Over the years Wofford developed as an international competitor, successful coach, and sought-after commentator. Known for his wit, irreverence, and whip-smart observations on the sport and its participants, as well as the state of the “outside” world, his magazine columns were soon as legendary as his performances in the saddle. Now Wofford brings his immense talent for telling tales—all of them (mostly) true—to the page in a lively and absorbing look back through time spent in and out of the saddle. With lessons in horsemanship both simple and profound interwoven with fascinating stories from his many diverse adventures around the world, readers enjoy a peek inside the wild ride that can be the life of an international equestrian while pondering weighty questions, such as how to make decisions for the good of the horse and how to find a soulful connection with him. Although these questions may never be fully answered, readers discover something about themselves as they see how philosophical investigation contributed to Wofford’s own evolution over time. An honest, funny, poignant read certain to entertain and educate every horse person.

But Monty and Pat Roberts have also fostered over forty children and have seen how the same concepts of mutual agreement and trust can be used with great benefits in a family environment. Seabiscuit-Laura Hillenbrand 2003-07-01

#1 NEW YORK TIMES BESTSELLER • From the author of the runaway phenomenon *Unbroken* comes a universal underdog story about the horse who came out of nowhere to become a legend. *Seabiscuit* was one of the most electrifying and popular attractions in sports history and the single biggest newsmaker in the world in 1938, receiving more coverage than FDR, Hitler, or Mussolini. But his success was a surprise to the racing establishment, which had written off the crooked-legged racehorse with the sad tail. Three men changed *Seabiscuit*'s fortunes: Charles Howard was a onetime bicycle

repairman who introduced the automobile to the western United States and became an overnight millionaire. When he needed a trainer for his new racehorses, he hired Tom Smith, a mysterious mustang breaker from the Colorado plains. Smith urged Howard to buy *Seabiscuit* for a bargain-basement price, then hired as his jockey Red Pollard, a failed boxer who was blind in one eye, half-crippled, and prone to quoting passages from Ralph Waldo Emerson. Over four years, these unlikely partners survived a phenomenal run of bad fortune, conspiracy, and severe injury to transform *Seabiscuit* from a neurotic, pathologically indolent also-ran into an American sports icon. **BONUS:** This edition contains a *Seabiscuit* discussion guide and an excerpt from *Unbroken*. Praise for *Seabiscuit* "Fascinating . . . Vivid . . . A first-rate piece of storytelling, leaving us not only with a vivid portrait of a horse but a fascinating slice of American history as well."—The New York Times "Engrossing . . . Fast-moving . . . More than just a horse's tale, because the humans who owned, trained, and rode *Seabiscuit* are equally fascinating. . . . [Laura Hillenbrand] shows an extraordinary talent for describing a horse race so vividly that the reader feels like the rider."—Sports Illustrated "REMARKABLE . . . MEMORABLE . . . JUST AS COMPELLING TODAY AS IT WAS IN 1938."—The Washington Post
